ABOUT ME

University of Waterloo educated Platform Engineer with 8 years of professional experience who is passionate about building robust and scalable tooling and backend platforms.

SKILLS

Python, C#, Serverless, CI/CD, ECS, Javascript, Datadog, Postgres, RDS, Jenkins, Bash, React, Kubernetes, AWS Lambda, Splunk, LaunchDarkly, Terraform

EXPERIENCE

Autodesk Inc

San Francisco, CA

Senior Software Engineer

Oct 2022 – Apr 2026

- **Led and onboarded new team** focused on platformizing quality tooling and test-data generation
- **Designed, developed, and maintained a serverless lambda service** using C# and Python, supporting validation of data in new datacenters and load testing across distributed systems, reducing test data creation time from **2 months to 30 minutes**.
- Collaborated with multiple engineering teams across Autodesk to promote **inner sourcing**, enabling cross-team adoption and shared ownership.
- **Executed large-scale data migration** for a 24x large Amazon RDS instance with **8k QPS** to enable read replicas, failovers and improve performance.
- **Led expansion** of Autodesk Construction Cloud components into new Australian Datacenter to facilitate performance improvements and data sovereignty requirements for customers.
- **Led Construction Backend Engineering Town Hall**, facilitating cross-team collaboration on shared backend architecture and platform challenges.

Software Engineer

Aug 2019 – Oct 2022

- Developed and maintained CI/CD pipelines and reusable test packages to enable feature teams to build robust automated testing frameworks and improve test quality and coverage.
- **Maintained and scaled** an internal service on Kubernetes responsible for generating, persisting, and dynamically assigning complex project data to users on demand for validation workflows.
- Led monthly meetings and events for Female and Non-Binary R&D members within Autodesk Construction Solutions, fostering inclusion, mentorship, and cross-team collaboration.

EDUCATION

University of Waterloo

Ontario, Canada

Bachelor Degree in Honours Computer Science

Sep 2014 – Jun 2019

INTERNSHIPS

SDET Intern

San Francisco, CA

PlanGrid (acq. Autodesk)

Sept 2018 – Apr 2019

- Kotlin, Python

Quality Automation Intern

San Francisco, CA

FutureAdvisor (acq. BlackRock)

Jan 2018 – Apr 2018

- Reduced test run time from 3 hours to 30 min using Selenium Element Caching

Co-op Student

Toronto, Canada

Toronto Transit Commission

May 2017 – Aug 2017

Security Data Analyst

Toronto, Canada

Royal Bank of Canada

Sept 2016 – Dec 2016

Mobile Developer

Toronto, Canada

New Signature

Jan 2016 – Apr 2016

Developer

Toronto, Canada

Evermight

May 2015 – Aug 2015

PROJECTS

Financial Reporter | *Kubernetes, Google Cloud API*

- Fetches transaction reports from Gmail, processes, categorizes and pushes it into Google Sheets. Run as a Kubernetes CronJob on home server

Personal Website | *React, Javascript, Github Actions*

- Portfolio Website originally deployed on Heroku, then Github Pages. Deployed using Github Actions

AO3 Trends | *BeautifulSoup, SQLite, Matplotlib*

- Web Scrapes archiveofourown.org in accordance with the robot.txt file requested rate limit
- Processes tags associated with fan works using NumPy and displays trends in fandoms across time
- Data Storage with SQLite DB and SQLAlchemy
